

EXTENT OF THE STORM IN THE CAPITAL CITY

Seven and One-Half Inches of
Snow Falls.

The Weather Bureau Predicts More
White Crystals Tonight.

Commissioners in Urgent Need of an
Appropriation—The Principal
Industry of Washington.

Washington appears to be many degrees
north of its native latitude.

The forecast for the District of Columbia
is that there will be more snow today and
tonight, that tomorrow there may be snow
or rain, and that brisk winds will blow out
of the northeast and the northwest.

Washington was a study in white this
morning. The streets of gray and red had
become white, the parks of green had become
white, and the houses of white and red had
become white.

Snow-shoveling was one of the leading
industries of the day. Men labored at
scores of street crossings and the sound of
shovels grating on the pavements was heard
throughout the city.

The snow, which came at about 10
o'clock, large gangs of men were at work
clearing the walks about the public build-
ings. About fifty men were at work in the
White House grounds and soon the main
driveway was cleared, but it was again
covered with snow and the clearing pro-
cess was repeated. Gangs of men were at
work early around the Treasury, War and
Navy, Interior, and Postoffice depart-
ment buildings. The janitors of office
buildings and the sextons of churches
worked until they were almost exhausted.

Unless Congress shall come to the as-
sistance of the Street Cleaning Department
of the District the thoroughness of the
city will be in jeopardy.

There is no money available for the re-
moval of the snow from the streets. The
District Commissioners in their arguments
before proper committees of Congress have
pointed out that public health must suffer
if the snow is allowed to block the streets
and that in the course of time it will
begeth the city.

An urgent request was made for an ap-
propriation of \$10,000 this year. Congress
allowed only \$1,000, which was expended in
removing but a part of the snow which
fell one night during January last.

A deficiency appropriation of \$10,000 was
granted. The District authorities have
thus received but \$2,000, when trouble that
amount was needed to remove the snow
which fell during two storms. A third re-
quest has been made for an additional de-
ficiency appropriation of \$5,000. No action
has yet been taken.

The regular street cleaning fund cannot
be drawn upon for the removal of snow. In
several winters ago the Superintendent of
the Street Cleaning Department was au-
thorized by the District Commissioners to
use \$200 out of the street cleaning fund
for the removal of snow. The account was
not allowed by the accounting officers of
the Treasury on the ground that money
specifically appropriated for one purpose
cannot be used for another.

The street car companies kept their
tracks swept in operation all night and
through the day. The street car companies
diligent work, the electric and cable lines
overcame the difficulty caused by the heavy
snowfall, but the horse lines suffered ac-
cidentally. They kept their plows and
sweepers running all night, but when day
came it was necessary for them to double
their teams and in most cases to reduce
the number of cars to one-half.

The capacity of the cars was over-
stressed because nearly everybody who went
to office or to other work, elected to ride.
Few persons were willing to walk and the
bicycle was laid aside.

Young Washington revels in the snow
fall. The hills are dotted with coasters
and snowballs. A popular game is to
throw snow from the roof of a house. The
snow men and snow forts have been
erected here and there.

During this storm, seven and one-half
inches of snow have fallen. Five inches
fell on Sunday morning and two and one-
half inches have fallen since last night.

The storm which was heralded in North
Carolina Sunday morning, developed in the
District today. Another of similar nature
developed in the extreme southwest, and
this morning another of similar nature de-
veloped in the extreme southwest.

This storm has caused snow in Virginia,
the Ohio and Middle Mississippi valleys,
and the northern portion of the west Gulf
States and rain and snow in the east Gulf
and south Atlantic States.

Another slight depression in extreme western
Texas, which is causing snow in New Mex-
ico and extreme northern Texas. There
was also snow in eastern Colorado and
southern Kansas. In the remainder of the
West and in the upper lake region generally
fair and continued cold weather has

prevailed with abnormally high pressure
in the northern and middle plateau. The
temperature is 23 degrees below
zero at Idaho Falls, 28 degrees below at
Cheyenne, and 29 degrees below at Denver.
The zero line reaches into the extreme
northern part of the Texas Pan Handle,
and extends northward through the
southern portion of the upper lake region.

On the Pacific coast the weather has
been mostly fair, except in the northern
portion, where there were light rains dur-
ing Sunday.

For the twenty-four hours, ending 8 a.
m. Sunday, rain fell throughout the South-
ern States; snow in the Ohio Valley, lower
lake region, and from northern Virginia
northeastward through eastern New York,
and there were also scattered snow flurries
in the central West.

Snow is indicated today and Tuesday in
the Atlantic States as far south as north-
ern Virginia and also in the Ohio Valley,
lower lake region, and from the middle
Mississippi Valley southward through
northern Texas. In the Gulf and South
Atlantic States it will rain.

The officials at the Weather Bureau
prophecy that the changes in the tempera-
ture will be unimportant, except in the
southern portion of the Gulf States, where
it will be southerly, becoming northerly
Tuesday.

The following heavy precipitation (in
inches) has been reported during the past
twenty-four hours: Raleigh, 1.40; Char-
lotte, 2.

For the twenty-four hours, ending 8 a.
m. Sunday, the following precipitation oc-
curred: Memphis, 1.38; Nashville, 1.28;
Charlotte, 1.12.

QUEER WEATHER IN THE SOUTH
Thunderstorms Followed by a Travel-
ing-Hoarding Snow.

Baltimore, Feb. 6.—Electrical and snow-
storms have been chasing each other across
the Chesapeake Bay and from the mountains
to the sea in Maryland during the last
twenty-four hours. These peculiar atmos-
pheric conditions have excited the wonder
of the weatherwise and the superstition of
the negroes. While the country on the
Eastern Shore was covered with snow, the
temperature in a few hours rose between
20 and 20 degrees, and a terrific electrical
storm burst.

The snow covered the mountains and
a colored girl named Ruth Morlock was
killed by a bolt of lightning near her home
in Dorchester county. In the southern part
of the State the electrical disturbances were
also severe. An unknown colored man in
Howard county was found dead on a road
beside a tree that had been split in two
by a bolt of lightning.

The temperature fell rapidly after this
storm, and at 2 o'clock yesterday morning
a blizzard developed. In four hours it
was as cold as the blizzard of last night.
The storm interfered with navigation. The
country roads are impassable and railroad
trains are delayed on the mountain roads.

The snow-covered mountains are dis-
tinctly visible from the city. The snow-
swept by the thunderstorms fear the world
is coming to an end.

TO SUCCEED JUDGE M'COMAS.
Maryland Congressmen Urged to En-
dorse Chubbuck.

Judge M'Comas is busy securing the sig-
natures of the Maryland Representatives to
a paper asking the President to appoint
Judge General Chubbuck to succeed him.
The Maryland House of Delegates, to the
benefit which will be vacant when Judge
M'Comas resigns to enter the Senate.

It is understood the Maryland Senators
wish to have the resignation accepted and
the nomination sent to the Senate so that
it can be ratified just previous to the swear-
ing in of Judge M'Comas as Senator.

Representative McDonald and M'Comas
were the only members of the Maryland de-
legation seen and Judge M'Comas secured
both their endorsements.

Representative M'Comas' endorsement was
conditional on the President's selection of
place for Mr. Adrian Poseny, the State's at-
torney for Charles county, Md. to whose
support he is already pledged.

KEY-DEPOSIT FUND.
Mr. Leou's Bill Giving Authority to
the Postmaster General.

Representative Leou of California, Chair-
man of the Postoffice Committee, has in-
troduced a bill authorizing the Postmaster
General to maintain a key-deposit fund.

The bill prescribes that the Postmaster
General may require at all postoffices, under
such rules and regulations as he shall
prescribe, a deposit for each key, or other
similar contrivance approved by him, in-
sured to the extent of any lock box, lock
drawer, or other receptacle provided for the
deposits of keys, and the Postmaster Gen-
eral shall be liable on their official bonds for
the safe-keeping of, and due accounting for,
all moneys heretofore, and which may be
deposited in such fund, and for the safe-
keeping of, and due accounting for, all moneys
deposited in such fund, or any other similar
contrivance.

DIRECTED AT THE SOUTH.
Bill to Enactuate the Registered
Voters of Each State.

Representative Crumacker of Indiana,
has introduced a bill requiring the Director
of the Census to compile in convenient
form the election and registration laws of
the several States in so far as they affect
the qualification of voters, and to collect
statistics showing the number of regis-
tered voters in each State, and the num-
ber of votes actually cast at the Presi-
dential election in 1896, and the regular
Congressional elections in 1898. He is also di-
rected to prepare from the population
schedules a tabulated statement showing
the number of white and colored male citi-
zens in each State over the age of twenty-
one years, together with the number of
illiterate, insane, and idiots in each class.

Woman's National Press Association.
The Woman's National Press Associa-
tion, of which Mrs. S. G. Grier, president, held
its regular meeting at Willard's Hotel Feb-
ruary 4. Routine business was transacted
and delegates elected to the three woman
conventions that meet here next week, the
Mother's Congress, the International Press
Union, and the National Council of Wo-
men. The open session was held at 8:30 p.
m. and was attended by the usual number
of the literary elite, which was after-
wards discussed by the members. Miss
Bessie Pauliney recited two selections
and Prof. Charlesmagne Koehner, of
Georgetown University, gave an imitation
in which he personated the characters in
opera, imitating every instrument in the
orchestra and every singer on the stage.

Fire in a Brooklyn Drug Store.
A slight fire occurred early this morning
in the drug store conducted under the
town hall at Brooklyn, D. C., by Bernard
O'Donnell, but was extinguished before
much damage was done. The hall is owned
by the Town Hall Association of Brook-
lyn.

Wagon and Car Collide.
A collision occurred early this morning
between a wagon being driven along H
Street northeast, between North Capitol
and First Streets, by Walter Wilkins, and
a Columbia Railroad Company's car. The
car was going at a very slow rate of speed
at the time and no damage was done.

Petition in Bankruptcy.
Harry T. Wilder, who states his vocation
as a "clerk," today filed a petition in vol-
untary bankruptcy. He states his liabilities,
which consist of unsecured debts, at
\$4,544. No assets are listed.

In West Virginia.
Charleston, W. Va., Feb. 6.—Snow fell
here Saturday to the depth of four inches.
Piedmont, W. Va., Feb. 6.—A heavy snow
fell in this section Saturday night.

AMERICAN TROOPS LOCATED IN CUBA

List of the Regiments Stationed
in Each Province.

Points From the Only American
Newspaper in Havana.

A Military Sanatorium to Be Es-
tablished on the Isle of Pines—St-
dentate to Buy Bees.

Havana, Feb. 6.—The "Havana Adver-
tiser," the first and only English news-
paper published by an American in the
city of Havana, gives much Cuban news
of interest.

From the "Advertiser" it appears that
the United States troops in Cuba are now
distributed as follows:

Havana City—Eight and Tenth United
States Infantry, Second United States Ar-
tillery, and one squadron of the Seventh
United States Cavalry.

Havana Province—Second, Fourth, and
Ninth Illinois, Sixth Missouri, Forty-ninth
Iowa, Fourth Virginia, Third Nebraska,
First Texas, Second Louisiana, First North
Carolina, One Hundred and Sixty-first In-
diana, Second South Carolina, First Maine
Artillery, a battalion of Second United
States Volunteer Engineers, two compa-
nies United States Volunteer Signal Corps,
and two light batteries of Second United
States Artillery.

Matanzas—One Hundred and Sixteenth In-
diana, Twelfth New York, Twelfth and
Sixteenth companies United States Volunteer
Signal Corps, and one battalion Third
United States Volunteer Engineers, Third
Kentucky, Eighth Massachusetts.

Pinar del Rio—First United States In-
fantry, Two Hundred and Second New
York Infantry, and one squadron Seventh
United States Cavalry.

Fourto Principle—Fifteenth United States
Infantry, Eighth United States Cavalry,
Third Georgia.

Santa Clara—Thirty-first Michigan, Sixth
Ohio, Fourth Tennessee.

Sancti Spiritus—Eighty-third Illinois, Twenty-third
Kansas, Second, Fourth, Fifth, and Ninth
United States Volunteer Infantry, Fifth
United States Infantry (regulars), and ap-
proximately 1,000 men of the regular army.

"The seashore for a mile or so upon each
side of Playa de Marianao has become a
favorite recreation ground for the soldiers
of the Seventh Corps. The coast is rocky,
but there are several fine beaches,
and here they revel in surf bathing. Cu-
riosity hunters have found many old
shells and sea urchins. The pleasure of
this outing is doubtless one of the main
reasons for their being here."

The weather in their own homes just
now. Outdoor bathing in January would
be slightly imprudent in most parts of the
United States.

The four infantry battalions of the
Seventh Corps who left camp last Sunday
on a practice march to Guines returned to-
day. The march was a very pleasant one,
affair, besides giving the men valuable ex-
perience in actual campaigning. The heat of
the men was excellent throughout, and they
returned in fine spirits.

Least Leonard Williams, who is an ex-
cellent signal corps, has received his com-
mission as captain. Major Eugene T. Ladd
has been relieved from duty as chief quar-
termaster on General Miles' staff. Mr. Ladd
is a native of this city and was a mem-
ber of the military academy of this city
under Colonel Bliss, chief of customs.

Capt. Alexander Cook, Second United
States Volunteer Engineers, has been ap-
pointed as acting assistant quartermaster
and commissary for the military hospital
recently established in Havana.
